Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I already can't afford to get a regular cell phone plan, because I have no credit history, & can't afford the VERY HIGH deposit, I'm on a limited budget! I'm in low income housing, but we deserve to be able to have cell phones too, the only way most of us can do that, is PREPAID, but we can barely afford to add the minutes now, if this proposal goes through, we would have to pay more as well as regular cell phone users, this is VERY UNFAIR!!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Big businesses should have to pay MORE, not less, how else do you think they became BIG businesses?? this will hurt the little guys, who, by the way, consists of more than 3/4 of the population!! if you want to discriminate, discriminate AGAINST the BIG GUYS!!

Keep the USF Fair!

Sincerely,

Cynthia Brooks
